ABOUT ME

Final-year undergraduate in Industrial Statistics and Mathematical Finance at the University of Colombo, with a strong academic foundation in Statistics, Computer Science, Financial and actuarial mathematics, and Applied Mathematics.Skilled in Python, SQL, Power BI, and Excel for data analysis, visualisation, and extracting business insights from datasets.Experienced in performing exploratory data analysis, building dashboards, and presenting analytical results clearly. Passionate about applying statistical and analytical skills to solve real-world business problems and eager to gain hands-on experience as a Data Analyst Intern while continuously improving technical and analytical abilities.

EDUCATION

BSc in Industrial Statistics and Mathematical Finance **April 2023 - Present**

University of Colombo

- Coursework in Statistics, Computer Science, Financial Mathematics, Applied Mathematics and Management Science

G.C.E Advanced Level (A/L) Examination – Physical Science Stream **2021**

Results : A (Physics),B (Chemistry) , C (Combined Mathematics)

G.C.E Ordinary Level (O/L) Examination **2017**

Results : A - 8, B- 1

PROJECTS

1.Customer Churn Analysis Dashboard | Power BI, DAX

- Analysed customer data to identify key behavioral and contractual factors influencing churn.
- Developed an interactive Power BI dashboard to visualize churn trends across subscription types, contract durations, and customer demographics.
- Identified high-risk customer segments and provided insights to support targeted retention strategies.

2.SQL Exploratory Data Analysis – Sales Data Warehouse | MySQL, phpMyAdmin

- Conducted exploratory data analysis on a retail sales data warehouse containing customer, product, and transaction data.
- Developed SQL queries to examine customer demographics, product performance, and revenue trends.
- Identified key business insights including top-performing product categories, seasonal sales patterns, and customer purchasing behavior.

3.Supply Chain Data Analysis | Python, Pandas, Matplotlib, Seaborn

- Performed data analysis on supply chain data including pricing, logistics, and product quality metrics.
- Utilised Python data analysis libraries to clean, process, and visualize operational data.
- Identified major revenue-driving product categories and highlighted supplier quality variations to support supply chain improvement decisions.

TECHNICAL SKILLS

- **Data Analytics & Statistical Concepts:** Exploratory Data Analysis,Data preprocessing
- **Programming & Data Handling:** Python, SQL, Pandas,Java
- **Business Intelligence & Visualization:** Power BI
- **Analytical Tools & Software:** Excel, SPSS, R studio

SOFT SKILLS

- Willingness to Learn
- Leadership & Team Coordination
- Problem Solving & Decision Making
- Time management

VOLUNTEERING EXPERIENCE

Board Member (Technical & Live Streaming Division) – FOS Media **2024 – 2025**
Faculty of Science, University of Colombo

- Served as a member of the Board of Directors of the official media unit of the Faculty of Science
